

**City of Monroe, North Carolina**  
**Small General Service**  
**Schedule SG**

AVAILABILITY

This schedule is available only to commercial consumers for service supplied to an individual store or commercial establishment purchasing all of its power requirements from the City; and having a demand equal to or greater than 20 kW and less than 30 kW. When the demand is or exceeds 30 kW; or the demand has been less than 20 kW or exceeded 30 kW within the last twelve months, the applicable schedule will apply until such time the demand has been equal to or greater than 20 kW and less than 30 kW for 12 consecutive months.

Service will only be provided to facilities constructed in conformance with the City's specifications.

TYPE OF SERVICE

The City will furnish 60-cycle service through one meter at one of the following voltages:

- Single Phase 120/240 or
- Three Phase 208/120 or 480/277 volts from a 4-wire Wye connected circuit. (Prospective consumers should ascertain the available type of service by inquiry at the City Hall before purchasing equipment).

Motors in excess of 5 HP must be three phase; however, all motors must be of a type approved by the City and the City may require devices to control the motor starting current.

Customers receiving 3-phase service shall provide 3-phase protection. The City will not be liable for single phasing of any installation.
