

MAFC Family,

WE MISS YOU!

As always, the health and well-being of our members and staff is top priority with the MAFC and with the City of Monroe officials. We will continue to make decisions based on your health and safety.

Given the increased threat of COVID-19, N.C. Governor Roy Cooper issued Executive Order 120. This Executive Order requires all fitness facilities to remain closed at least through April 25, 2020.

Due to the extended closure, we will suspend all drafts until further notice. The lost time in March will be credited at the end of this crisis. If you are a prepaid annual member, your dues will also be credited.

We understand the restrictive impact COVID-19 has on your fitness lifestyle, so our commitment to your health and wellness is stronger than ever! The MAFC Team is hard at work creating fun videos that also focus on fitness and nutrition. We want to keep you motivated and **MAFC STRONG!** Please follow us on our Facebook page so you and your family can participate in our interactive fitness fun and games!

Your on-site Novant RNs, Tracey and Sheila, recommend you visit NovantHealthVideoLibrary.HealthClips.com. It is an online video and resource library that has accurate, reliable health and wellness information.

We will reopen as soon as possible. You can find the most up-to-date MAFC announcements in three locations: our webpage, www.MonroeAquaticsandFitnessCenter.com; our FB handle, [@monroeaquaticsandfitness](https://www.facebook.com/monroeaquaticsandfitness); and our Instagram handle, [Monroe_Aquatics_And_Fitness](https://www.instagram.com/Monroe_Aquatics_And_Fitness).

Stay healthy and be well. We miss you and can't wait to see you again!

MAFC Team
